EDUCATION

University of North Texas — Denton, TX
Bachelor of Science in Computer Science — *Aug. 2017 – Dec. 2020*

PROJECTS

Car Dealership Catalog | *React, MongoDB, Node.js, Express.js* — Personal Project
- Implemented Front End showing car catalog to users with React.
- Developed ability for Front End to pull information from each vehicle from the MongoDB database.
- Implemented feature for employees to add new cars to catalog from the web app.
- Deployed at: https://cardealer-frontend.onrender.com

Task Manager | *React, MongoDB, Node.js, Express.js* — Personal Project
- Implemented a To-Do List/Task Management Web app.
- Developed working database with CRUD functions that communicates with the front-end
- Implemented function for users to create tasks, edit tasks and their attributes, and see all their tasks sorted by status.
- Deployed at: https://taskmanager-frontend-8dip.onrender.com

Chess Game Tracker | *React, MongoDB, Node.js, Express.js* — Personal Project
- Developed a database that communicates to the front end with POST and GET requests.
- Developed front end that performs CRUD operations on the database
- Deployed at: https://gametracker-frontend.onrender.com
- Implement function for users to add Chess game result to list of results and see a "football" style league table based on those results.

React Portfolio Web App | *React* — Personal Project
- Implemented a personal React front-end based web app to represent portfolio and resume pages using components.

- Deployed at: https://react-app-vert-psi.vercel.app/Home

Command Line Interpreter | *C* — Group Project
- Implemented a command line interpreter (shell) in C as part of a group
- Individual contributions to the project were cd and redirection functionalities for the shell.
- Developed a cd function to change the user's working directory to the specified directory and a redirection function to redirect input or output of commands to specific files by the user.
- Worked in a scrum environment.

TECHNICAL SKILLS

Languages: C, C++, C#, Python, JavaScript, HTML, CSS
Frameworks: React, Node.js
Developer Tools: Git, VS Code, Visual Studio, Agile, SCRUM
Soft Skills: Communication, Teamwork, Attention to detail, Time management
